

VITAE

Born 1977 in Salzburg (Austria), Eva M. Paar works and lives in Linz (AT) at the moment. Since the breakout of her illness on multiple sclerosis in 2001, she puts her whole energy in creating oil paintings and analog photographic artwork. Even though she often exhibits in other countries and continents, the strong attachment to Salzburg will always remain.

- 1977 Born in "Zell am See" – Salzburg (AT)
- 1997 Degree in advanced level secondary modern school
- 1997 Study at the Johannes Kepler University of Linz (AT) – some terms science of law and some terms social economics
- 2001 Discovery of her deep passion, painting in oil

ARTIST STATEMENT – Relaxed Formation (Oil)

She represents humans or abstracted figures by a play of parallel and differently broad lines. Eva M. Paar primary uses earth-colors, in order to give a warm and pleasant character to the oil paintings, which stands in contrast to the often coolly selected motives. Represented humans and scenes do not only dissolve by differently broad lines, but close together lying color gradations support the realistic effect from the distance. They let more exact outlines as well as shade develop.

The second half of the 20th century is located in the center of her present work. By icons of the sixties, and a juvenile manner innocent models of the present, up to socio topics, reflect in her dynamic poses and scenes.

ARTIST STATEMENT – Analog B&W Photography

In contrast to the "Relaxed Formation" the second activity of the artist is the black and white 35mm photography. Realistic objects such as trees are displayed very unreal. Due to the multiple exposure of the film on the one hand the motives develop a very mysterious and alien existence. While on the other hand this effect is reinforced by the transformation into the "digital world". Because of the digitization idiosyncratic colors come to light and make the "spirit" of the object visible to the watcher. In other places Eva M. Paar amplifies this effect by low digital processing.
