## Greetings!

[Eva Paar](#) is an award winning Austrian Artist who exhibits worldwide. Born in Salzburg, Eva works and lives in Linz. Since the breakout of her illness, multiple sclerosis, in 2001, she has put all her energy into creating oil paintings and analog photographic artwork. Even though she often exhibits in other countries and continents, her strong attachment to Salzburg remains.

After this show, she will be exhibiting in New York and Germany. Don't miss this opportunity to see her works here in Ottawa. We are very excited about these 22 recently received works.

Her unique style plays upon parallel and differentiated broad lines to represent humans, abstracted figures and scenes. Using warm earth colours provides a contrast to coolly selected motifs. Close together color gradations let more exact outlines as well as shade develop, in a realistic effect. The second half of the 20th century is the theme of her present work. **Icons of the sixties**, and innocent models of the present, including social topics, are reflected in dynamic poses and scenes.
